SCHEDULE

Proficiency in ultrasound takes practice. This workshop will give you the foundations to do more in the hospital for your patients. A great machine can only be effective if the user knows how to use it. Learn from the specialists, and develop your abilities in this two-day workshop so you can discover what your ultrasound equipment is capable of. Book today.

PRESENTERS

DR SARAH DAVIES

*BVSc, MS,
Diplomate ACVR*

Sarah is a graduate of the University of Sydney and became a Diplomate of the American College of Veterinary Radiology, having successfully completed her board examinations in September, 2009. She is a specialist in diagnostic imaging with the VIA team in Sydney. And has recently done some teaching at The University of Adelaide. Dr Davies has completed an internship at the Adelaide Veterinary Specialist Centre and at The Ohio State University. She was accepted into a 4 year residency training program at the Virginia-Maryland Regional College of Veterinary Medicine, in Blacksburg, Virginia. Sarah has a much loved Labrador and Cavalier King Charles Spaniel.

DR NATALIE WEBSTER

*BVSc CertVDI
DipECVDI MRCVS*

Natalie Webster graduated from Massey University in 2002 and after completing a small animal internship, went on to work in small animal practice in New Zealand and Australia for several years. She then completed a residency in Veterinary Diagnostic Imaging and at the Animal Health Trust, UK. During this time she obtained the RCVS certificate in Veterinary Diagnostic Imaging (2007) and became a Diplomate of the European College of Veterinary Diagnostic Imaging in 2009. She is a registered Australian specialist in veterinary diagnostic imaging. Natalie enjoys all aspects of diagnostic imaging with a special interest in portosystemic shunts and exotic animals. Since 2009 she has been working with the Animals Asia Foundation to provide teleradiology services to the rescued moon bears.
