Suturing Workshop on October 31st

Wound Closure is sometimes the trickiest part of surgery. We are all happy to cut and cure, but the closure often makes us cautious. Methods and Materials of wound closure effect healing. If you want to practice your technique and learn more about best practice this is the workshop for you. Perfect for any vet who wants to build confidence or correct their techniques, this bite sized workshop will provide a nurturing quiet space to become a better veterinary surgeon.

SPEAKER

Dr Andrew Marchevsky | Specialist in Small Animal Surgery
BVSc (Hons) MVS FACVSc

Andrew is a 1988 Sydney University graduate who spent several years in general practice before training at the Veterinary Teaching Hospitals at Melbourne and Murdoch Universities between 1992 and 1999. In 1999, he became a Fellow of the Australian College of Veterinary Scientists and a Specialist in Small Animal Surgery and since then has been in private specialist practice. He has extensive experience in all aspects of surgery. His particular interests include spinal and brain surgery, cancer surgery, fracture repairs, thoracic and abdominal surgery and soft tissue reconstructive surgery. Andrew is married with three daughters, two dogs, two cats and a revolving door of fish.
