

Clinical Zoom Rounds For the Vetcare Team with

DR MARGIE MCEWEN AND FRIENDS

With years of teaching anaesthesia & pain management in both the US and Australia, Dr Margie McEwen brings to the global VetPrac community something for everyone.

This is an opportunity for you to drive the discussion and bring along the questions that you want answers to.

Margie will start the session with some material focused on the topic for the week and then you and your fellow participants will have the opportunity take the driver's seat.

Do you have a specific case that you want to ask about? Do you have a question about a patient's anesthetic protocol where you need to consider a medical process that is occurring?

Participant experience, combined with their own cases will fuel this discussion, as Margie facilitates and shares her experience and knowledge to help answer your questions. As a collective we will learn a lot together in a short period of time.

This session has limited places and you will need to register through the link below to secure a place.

Be fast, the places are filling quickly.

When	Weekly on Tuesdays at 7pm MDT
Course fee	CA\$65 per session
Direction	An email with the ZOOM Link will be sent on completion of registration
